PROTOTYPE PARADE: Project Expo

Description:

➢ Prototype Parade is a dynamic platform that enables participants to showcase their innovative projects in the fields of electronics and communication. Participants can take part either individually or in teams. The event is designed to promote creativity, demonstrate technical expertise, and encourage knowledge exchange through effective and engaging projects.

Event Rules:

➢ Team Size: Each team may consist of up to three members only.
➢ Participation Rule: A participant is allowed to be a member of only one team.
➢ Requirements: Participants must bring their own laptop, charger, and Ethernet adapter.
➢ Focus Area: Projects must fall within the Electronics and Communication Engineering (ECE) discipline, covering domains such as IoT, VLSI/CLSI, communication systems, and related areas.
➢ Presentation Duration: Each team will be allotted 3–5 minutes to present their project.
➢ Prototype Requirement: Submission of a working prototype is compulsory.
➢ Software Projects: Participants must demonstrate the working output of the software on the spot.
➢ Final Verdict: The decision of the judging panel shall be final and binding.

Judging Criteria:

➢ Innovation: Originality and creativity of the idea.
➢ Functionality: Practical application and effectiveness of the prototype.
➢ Presentation: Clarity, structure, and engagement during the presentation.
➢ Viva Performance: Depth of knowledge and accuracy of responses.
